**ACCESSIBILITY PLAN**

**20XX-20XX (NOTE TYPICALLY A PLAN SHOULD LAST FOR 3 YEARS)**

**Include a short summary here to say what the plan is about so readers can easily understand it.**

**To note: guidance (shown in blue) included in this template should be removed prior to publication.**

## **1. The Purpose of this Plan**

Below is some standard text which you may use. You may wish to consider writing an introduction from the Head Teacher/Chair of Governors.

This plan sets out how The Academy will increase access to education for disabled pupils in three key areas:

- a) increasing the extent to which disabled pupils can participate in the academy curriculum;
- b) improving the environment of the academy to increase the extent to which disabled pupils can take advantage of education and associated services;
- c) focusing on how we deliver information, which is often only provided in writing to improve accessibility for all including disabled parents.

Our school accessibility plan will be reviewed every three years and reported on annually.

## **2. What does accessibility and inclusion mean for our academy?**

We are committed to providing an academy that can be accessed, understood and used to the greatest extent possible by all people regardless of their ability or disability.

When reviewing or redesigning our academy environment (such as our buildings, technology, information, communication or culture) we will be guided by the following:

- (a) Provide the same means of use to enable access for all users: identical whenever possible; equivalent when not
- (b) Avoid segregating or stigmatizing any users
- (c) Provisions for privacy, security and safety shall be equally available to all users
- (d) Ensure dignity in use for all users.

## **3. Definition of disability**

The definition of disability is set out in the Equality Act 2010, Part 6:

‘A physical or mental impairment which has a substantial and long term effect on a person’s ability to carry out normal day to day activities’.

Reasonable adjustments for disabled people

Where something the school does places a disabled person at a substantial disadvantage compared to a non-disabled person, we will take all reasonable steps to try to avoid that disadvantage. This may mean changing the way we work, providing extra equipment or removing physical or other barriers.

#### **4. Information about our academy**

You can find out about our academy on our website, here [[include web link to your website](#)].

#### **5 What we have in place to make our academy accessible**

This section should be used to provide context to parents and carers as to the breadth of ways in which your academy is already accessible. You may wish to consider putting information under the same headings as your action plan so parents / carers can see what you have done and what you are going to do. This section is an opportunity to celebrate the great work that has already been done so you may wish to involve students in writing it and also consider using photos.

#### **6 Challenges to accessibility that we want to address**

Say something here about any specific challenges you face as a academy due to the building/site that you occupy, or any other issues that impact on your academy community. This is also a section that could be developed with your students.

The actions below will be a summary of the things you decide to do as an academy community to help address the above 3 challenges to accessibility.

**Action Plan**

**How to complete this section** (the text below should be removed after you have filled out your action plan)

**What to include in this section: - What are we doing**

This should explain in a straight forward way what you intend doing. Try to avoid acronyms as much as possible and keep it short, the reader can speak to the responsible person if they want more information.

**What to include in this section: - What it will mean for students**

This should explain what the benefit of the action will be for students. You may wish to use some standard text like ‘Increasing access for disabled pupils to the academy curriculum’, ‘Improving access to the physical environment of the school’ and ‘Focusing on how we deliver information to disabled pupils and parents’ to keep your plan consistent. You may also consider involving students in developing what they feel achieving the action will mean to them.

**What to include in this section: - Who is responsible for achieving it**

This needs to be someone of sufficient authority to make decisions about how to take the action forward. This should be one person but you may wish to consider using their job title instead of their name.

**What to include in this section: - When it will be achieved**

This should be the date when the action will be fully completed. You may wish to consider splitting more complex activities to allow them to be closely monitored. Where it is necessary to change a date then you may wish to consider including some text as to why the date has changed.
